

To whom it may concern,

I am writing this letter to explain why we feel it is necessary to build a screened in porch on the west side of our home. Currently we have a wood deck on the west side of our home that is of no use to our family. We have never been able to make use of this deck because of the unbearable heat in the afternoon. The deck faces the sun, and because it is two stories high, we are unable to obtain the necessary shade we need to feel comfortable. We are also tired of fighting off mosquitoes and bees. With three young children, we feel a screened in porch would be of great use to our family.

Thank You,

Nicole and Greg Karr
