Quarter Section: _____

TYPE OF WIRELESS FACILITY PROPOSED

- Collocation of small wireless facility on an existing wireless support structure or utility pole.
- Collocation of a small wireless facility on a new or replacement wireless support structure or utility pole.
- Eligible facilities request.
- Collocation of wireless facilities other than small wireless facilities and eligible facilities requests.
- Replacement and new wireless support structures or utility poles not involving small wireless facilities or eligible facilities requests.
- No permit or fee is required because the application involves one or more of the following:
 - (1) Replacement of a small wireless facility with a small wireless facility that is not larger or heavier and complies with applicable codes.
 - (2) Routine maintenance of small wireless facilities, wireless support structures, or utility poles.
 - (3) The installation, placement, maintenance, operation, or replacement of a micro wireless facility that is suspended on cables strung between utility poles or wireless support structures in compliance with applicable codes.

PLEASE NOTE: Applications with missing information WILL NOT initiate the permit application process. See Chapter 32.5, Article III of the City of Novi Code of Ordinances for regulations pertaining to Wireless Facilities in the Right-of-Way. See Section 4.86 of the City of Novi Zoning Ordinance for regulations pertaining to Wireless Facilities outside of the Right-of-Way.

APPLICATION REQUIREMENTS

Within Right-Of-Way

The following information, as more specifically described in Chapter 32.5, Article III of the City of Novi Code of Ordinances, must be attached to this Application to be complete:

- Specifications and drawings for each proposed small wireless facility containing the information set forth in Code Sections 32.5-55(a)(1)-(6).
- The proposed pole/lighting style matches the existing pole/lighting style at the location of the proposal as set forth in Code Sections 32.5-57(15)-(23).
- Certified documentation that each proposed wireless structure or utility pole can structurally accommodate the proposed wireless facilities.
- Proof of permission granted by property owner and owner of the pole or structure.
- Manufacturer, model number and dimensions, including height, width, depth, weight, volume in cubic feet of all proposed wireless facilities individually and collectively, and total cubic feet of each antenna and total cubic feet all other wireless facilities.
- Written certification that the wireless facilities will be operational within one (1) year after permit issuance.
- Certificate of compliance with FCC rules for radio frequency emissions.
- Copies of all required permits from other governmental entities that have an ownership, control, or jurisdictional interest in the right-of-way.
- Documentation of the date when complete applications for construction code permits and any required applications for Zoning Ordinance permits or approvals were made.
- Contractor name(s), address(es), telephone number(s), and email

Outside of Right-Of-Way

The following information, as more specifically described in Section 4.86 of the City of Novi Zoning Ordinance, must be attached to this Application to be complete:

- A site plan in accordance with the requirements in Section 6.1 and containing all information required to demonstrate compliance with the approval standards in Section 4.86.1.B.
- Identification of the dates, nature and conditions of any prior zoning approvals or permits for the property.
- Certified documentation that each proposed wireless structure or utility pole can structurally accommodate the proposed wireless facilities.
- Certified documentation that the proposed height is the minimum necessary for the provision of personal wireless services by at least two (2) co-locating providers.
- Identification of all other structures and properties considered for the proposed use and a factual explanation of why they are not feasible in terms of availability, suitability, or otherwise.
- Identification of alternative locations, design, or features for the structure that are possible, whether those alternatives were considered, and if so, a factual explanation of why those alternatives are not proposed.
- If the application is for a new wireless communications support structure outside the I-1 and I-2 zoning districts or within three hundred (300) feet of a residential zoning district, identification and submission in written form of the evidence and arguments the Applicant will rely on in claiming that those restrictions prohibit or have the effect of prohibiting it from

PLEASE NOTE: Applications with missing information WILL NOT initiate the permit application process. See Chapter 32.5, Article III of the City of Novi Code of Ordinances for regulations pertaining to Wireless Facilities in the Right-of-Way. See Section 4.86 of the City of Novi Zoning Ordinance for regulations pertaining to Wireless Facilities outside of the Right-of-Way.
