AUDIENCE COMMENT:

Holly Bradford, Linden, MI, as a member of Puppy Mill Awareness, she wants to educate the public on how to go about finding their next pet so they don’t make the costly mistake that she did. The organization wishes to guide families to the local shelters by proclaiming this week as Adopt-A-Shelter-Pet Week. She read a proposed resolution regarding acquiring pets through adoption agencies.

Pam Sordyl, Clarkston, MI, said this Saturday will be Puppy Mill Awareness Day in Novi. They will do a human chain through Novi. It is to educate the public about the pet retail stores in Novi. She noted they will come to Twelve Oaks Mall along with the Humane Society and 35 businesses, animal welfare organizations, groomers and
veterinarians. They want businesses to encourage pet acquisitions through a source other than pet stores.

MATTERS FOR COUNCIL ACTION

1. Approval of Resolution to establish Industrial Development District for Harman Becker Automotive Systems, Inc. at the northwest corner of M-5 and 13 Mile Road.

Mr. Boulard, Community Development Director, added the public hearing for this action was held August 25, 2014. It is for the creation of a district for an approximately 188,000 square foot facility and when fully occupied will possibly be the second largest employer in the City of Novi.

Mayor Pro Tem Staudt noted this is a project that has worked through the processes and seems to have the support of the City departments. He confirmed with the City Attorney that they are approving the resolution for the District.
CM 14-09-146       Moved by Staudt, seconded by Wrobel; MOTION CARRIED: 5-2

To approve the Resolution to establish Industrial Development District for Harman Becker Automotive Systems, Inc. at the northwest corner of M-5 and 13 Mile Road.

Member Casey questioned, since they have seen the documentation from the applicant related to their request, when can Council give feedback to the applicant. City Attorney Schultz answered now is the time for feedback because the next meeting they will be looking for an approval of an agreement and a recommendation to the State that a tax exemption be granted. The packet to the State will contain an actual agreement that reflects the conversations the City has had. Now is the easiest time to say no if that was Council’s direction. Member Casey commented to Phil Eyler, representative for Harman Becker, she thought the use of tax abatements are taken very seriously in the City and want to be very judicious in how they are used. She is thrilled for them to come to Novi with the proposal of the facility they are bringing. She noted her concerns about the length of the abatement they are asking for. She noted Harman Becker is requesting a full twelve year time period. She prefers to see a time period of a 6-8 year abatement. She was curious to know how Harman Becker has been involved in the Community and what kind of contribution have they made to Novi. Mr. Eyler said he didn’t have specific examples but they have 300 employees in Novi and very involved in inner-city Detroit causes such as Boys and Girls Clubs. They are engaged and very involved. The facility will be their North American headquarters and Novi can count on some very significant support. It is a facility that will go from 300 to almost 1,000 employees. Member Casey thanked him and wanted to put on the record that she is interested in conversation about a shorter time period of the abatement.

3. Approval of resolution to authorize Budget Amendment #2014-15.

Mr. Boulard said these are the rollovers of the projects that were started under the previous fiscal year, the contracts that were not completed, and this was brought forward to close them out.

Member Mutch asked Mr. Johnson, Finance Director, if it was strictly rolled over from the previous items that didn’t get completed and not a mix of items. Mr. Johnson said going forward, there will be quarterly budget amendments that reflect everything, but now that the fiscal year ended, it is possible to know the balances of the contracts and projects that were budgeted in 2013-14 and not completed as of June 30th. They itemized each of them and are being rolled forward. The monies were approved but budgets expired at June 30. Member Mutch asked about the fund balance numbers reflected in the document. He explained traditionally they normally wait for the audit to be completed for the final numbers. He noted Mr. Johnson must feel comfortable enough with tying the numbers into the current budget. Mr. Johnson said the packet includes the projected fund balance for each of the funds. He explained before he turns the records over to the auditors, he makes sure that the numbers are accurate and there will be no adjustments. He noted they are better than anticipated. They have been prudent. The surplus can be addressed now as opposed to during the budget time. It is an opportunity for Council and Mayor to utilize the funds if necessary. Member Mutch said it was helpful because of the challenges getting the numbers so late into the fiscal year. It may be an opportunity to have a mid-year revisit of what is available. It would be helpful with the new City Manager coming in if City administration could review the numbers to address some additional identified projects.

CM 14-09-148 Moved by Mutch, seconded by Casey; CARRIED UNANIMOUSLY:

4. Consideration of the employment contract for the new City Manager.

Mayor Gatt said they sat down with Mr. Auger on last Friday and an employment agreement was reached.

CM 14-09-149 Moved by Staudt, seconded by Wrobel; MOTION CARRIED: 6-1

To approve the employment agreement between the City of Novi and Peter E. Auger effective September 16, 2014.
Member Fischer thanked the Mayor and Mr. Schultz for putting the agreement together. With the new contract he was looking to accomplish a couple of things. He would like to drive equality in the Administrative staff. At the end of the day all the employees are looking at what Council offers. He said the salary seems to be in line and the retiree health care costs have been reduced. He was concerned with two sections in the agreement. Section 9, the car allowance reflects a 16% increase over what Mr. Pearson had to $700 per month. He feels it is unnecessary at this time and sends the wrong signal to the employees that have been asked so much from. The other is section 17 which is an allowance for moving expenses and thought it would be wise to put in a cap as to what moving expenses were expected to be. The research he has done, he saw anywhere from $6,500 to $10,000 or if there is no cap he feels there should be clarifying language as to what reasonable moving expenses were. It should clarify whether they include closing costs, etc. He would be looking for some changes in those two areas.

Member Mutch asked Mr. Schultz his opinion on section 17 and whether it was standard language. Mr. Schultz said the idea behind this language which is carried forward from former City Manager Mr. Helwig’s agreement, that it does have the word reasonable in it and will request some evidence of the actual cost. There will be some determination through the Finance Department or Human Resources that the cost is reasonable or not. He didn’t think it was a cause of concern and wasn’t specific. Member Mutch said it was a fairly standard agreement with provisions that can benefit the City. He agreed with Member Fischer that he would like to see the City Manager to lead the way with Administrative staff, but it is a unique position. He is new and will have an opportunity to explore the details of our system to any changes he decides in the future.

Mayor Gatt said he had the opportunity to sit down with Mr. Auger on Friday and was very impressed how eager he was to begin to work. He is in tune with the employees, the public, business owners, and residents. He thinks we will be pleased with him.
