APPROVAL OF AGENDA
Motion to approve the November 4, 2015 Planning Commission Agenda. Motion carried. 5-0

1. LEARNING CARE ACADEMY JSP15-0057
Public hearing at the request of ICAP Development for recommendation to the City Council for Concept Plan approval under the Planned Suburban Low Rise Overlay District. The subject property is located on the west side of Beck Road north of Eleven Mile Road (Section 17). The applicant is proposing a child care facility to serve up to 170 children.

In the matter of Learning Care Academy, JSP15-57, motion to recommend approval of the Planned Suburban Low-Rise (PSLR) Overlay Development Agreement Application and Concept Plan based on the following findings, City Council deviations, and conditions:

a. The PSLR Overlay Development Agreement and PSLR Overlay Concept Plan will result in a recognizable and substantial benefit to the ultimate users of the project and to the community. The proposed development and site design provide a reasonable transition from the higher intensity hospital uses and lower intensity single-family residential uses thereby meeting the intent of the PSLR Overlay District. The site itself includes provisions for future vehicular and pedestrian connections along the proposed Public drive and a proposed pathway along Beck Road that will benefit the community as a whole.

b. In relation to the underlying zoning or the potential uses contemplated in the City of Novi Master Plan, the proposed type and density of use(s) will not result in an unreasonable increase in the use of public services, facilities and utilities, and will not place an unreasonable burden upon the subject property, surrounding land, nearby property owners and occupants, or the natural environment. Given that the size of the site is less than 10 acres, a community impact statement is not required. The current site plan is not proposing any impacts to natural features and has minimal impacts on the use of public services, facilities and utilities.

c. In relation to the underlying zoning or the potential uses contemplated in the City of Novi Master Plan, the proposed development will not cause a negative impact upon surrounding properties. The proposed building has been substantially buffered by proposed landscape and should minimally impact the surrounding properties.

d. The proposed development will be consistent with the goals and objectives of the City of Novi Master Plan, and will be consistent with the requirements of this Article [Article 3.1.27]. The proposed development meets the stated intent of the PSLR Overlay District to encourage...
transitional uses between higher intensity office and retail uses and lower intensity residential uses while maintaining the residential character of the area as outlined in this review letter.

e. City Council deviations for the following as the Concept Plan provides substitute safeguards for each of the regulations and there are specific, identified features or planning mechanisms deemed beneficial to the City by the City Council which are designed into the project for the purpose of achieving the objectives for the District as stated in the planning review letter:

1. City Council deviation from Section 3.21.2.A.ii and Section 3.1.27.D to exceed the maximum allowed front building setback 75 feet allowed; approximately 114 feet provided;

10. City Council deviation from Section 5.5.3.C.parking lot landscape to not provide the minimum required parking lot trees (21 required, 12 provided).
11. Planning Commission recommends that City Council not to delay from the requirement of the Traffic Impact Study to the time of future expansion but provide the study at this time.

f. The applicant updating the PSLR concept plan submittal to include the proposed phase lines and revised building elevations to include the future expansion as part of the PSLR concept plan, that were provided in electronic format for staff review;

h. The applicant revising the plan to redesign the turnaround to meet the Fire department standards;

i. The findings of compliance with Ordinance standards in the staff and consultant review letters and the conditions and the items listed in those letters being addressed on the Preliminary Site Plan.
