Public Hearings:

1. PZ18-0047 (Coy Construction Inc) 44682 Dunbarton Dr, East of Taft Road and North of Nine Mile Road, Parcel # 50-22-27-376-013. The applicant is requesting a variance from the City of Novi Zoning Ordinance Section 3.1.5 to allow a 10 foot rear yard variance for a proposed 25 foot setback for a proposed screened in porch, 35 feet minimum required by ordinance. This property is zoned Single Family Residential (R-3).

   The motion to approve case PZ18-0047 requesting a 10 foot rear yard variance for a screened-in porch was approved. Without the variance petitioner will be unreasonably prevented or limited with respect to use of the property because the natural conditions in the yard and homeowner's health concerns. The relief granted will not unreasonably interfere with adjacent or surrounding properties because the screen porch will be an enhancement to the property, increasing the value.

2. PZ18-0055 (Chris Ketzler/Toll Brothers) 20857 Dunhill Dr, West of Beck Road and North of Eight Mile Road, Parcel # 50-22-32-402-004. The applicant is requesting a 2% variance from the City of Novi Zoning Ordinance Section 3.1.2 to allow the 27% proposed lot coverage for a new home, 25% allowed. This property is zoned Single Family Residential (R-1).
The motion to deny case PZ17-0055 requesting a variance from the City of Novi Zoning Ordinance Section 3.1.2 to allow the 27% proposed lot coverage for a new home because the Petitioner has not established a practical difficulty was approved. Petitioner has not established that compliance with the strict letter of the restrictions of the ordinance would unreasonably prevent the use of the property or be unnecessarily burdensome, because Petitioner can comply with the ordinance by decreasing the size of the proposed residence, and still having a large residence consistent with the surrounding properties. Petitioner has not established unique circumstances regarding the area of the subject property, because petitioner is able to build residences on the adjacent lots which lots are substantially similar in size. The proposed user is merely seeking a residence that is oversized for the proposed lot and can reduce the size for consistency with surrounding residences. Petitioner has not established that the proposed use/improvement will not unreasonably impact the surrounding property because the proposed residence will be bigger than the surrounding residences. Petitioner has not established that, even with a grant of the variance, the spirit of the ordinance will be observed, public safety secured, and substantial justice done, because there is nothing about the size or area of the parcel and all surrounding lots are the same or substantially similar in size. All other neighbors will be required to limit the size of their residences to fit the lot. A lesser variance consisting of a smaller residence would do substantial justice to Petitioner and surrounding property owners because it will fit the lot and will be consistent with surrounding residences. Petitioner has not established that the need for the variance is not self-created, because petitioner is seeking a residence that is not consistent with surrounding residences and can be reduced to fit the lot size and still be used for residential purposes consistent with surrounding residential structures. The lot is no different than the surrounding lots.

Limited warehousing or storage of products used in research is allowed by code. This property is zoned Office Service Technology (OST).

4. PZ18-0059 (Brian Luke) 41032 S McMahon Circle, East of Meadowbrook Road and South of Ten Mile Road, Parcel # 50-22-25-104-016. This property is zoned Single Family Residential (R-4).
The motion to approve case PZ18-0059 requesting variance to allow a 9 foot front yard setback for a garage addition was approved. Without the variance petitioner will be unreasonably prevented or limited with respect to use of the property because the lack of a garage creates many issues with protecting belongs from weather conditions and criminal elements. The property is unique because of the unusually shaped lot. Petitioner did not create the condition because it is a long established neighborhood.

The property is unique because of its size and shape. The relief granted will not unreasonably interfere with adjacent or surrounding properties because it will be increasing the safety and usability of the property. The relief is consistent with the spirit and intent of the ordinance because it is a minimum request. The variance is subject to the term of the lease agreement between Nancy Simmons and the owners of parcel 50-22-03-453-016.

Section 28.6 for a 3 foot sign variance for proposed a 9 foot high sign, 6 feet allowed. This property is zoned Single Family Residential (R-1).

The motion to approve case PZ18-0063 requesting variance for a 64 square foot sign, 9 feet in height was approved. Without the variance petitioner will be unreasonably prevented or limited with respect to use of the property because temporary signage is necessary for the advertisement for the new housing available. The property is unique because the sign sits alone on a vast green space adjacent to a fast travelling road. The variance granted is subject to one year or sellout of lots, petitioner is required to return to the board for an extension should they require the temporary signage for longer than a year.
