# STRATEGIC PLAN

---

[OLATHEKS.ORG/OLATHE2040](https://olatheks.org/olathe2040)

## IMAGINE OLATHE ART CHALLENGE

The Olathe Planning Division engaged fifty 8th grade art students from Pleasant Ridge Middle School throughout October 2018 to celebrate National Community Planning Month. This is the second year of the collaborative program involving students residing in Olathe and surrounding areas.

National Community Planning Month is an opportunity to highlight the importance of good planning and community outreach. Planning provides an opportunity for all residents to be meaningfully involved in making choices that determine the future of our City.

The students created murals modeled for sites in our downtown, City parks, and public gathering areas depicting themes of the Olathe 2040 Strategic Plan. Planning staff visited the school in September to gather ideas from the students regarding future neighborhoods, entertainment, transportation, the environment, and technology.

Students were challenged to create a mural depicting an image that represents the themes of Olathe 2040. They also researched an artist for inspiration and explored how the community would interact with their mural if it were reproduced in the City. The project concluded in presentations by the students to a panel of City staff from the Communications and Planning Divisions. The murals were displayed at City Hall during the month of November to celebrate their hard work and dedication to the future of Olathe. The student artwork is featured in this document.

# LETTER FROM THE MAYOR

---

Dear Friends,

Olathe is one of America's best places to work. Olathe is one of America's best places to live and raise a family. It is one of America's best places to invest in a home or a business. That did not happen by accident.

It happened because we live in a community that cares; a city that collaborates to get things done. It happened because tens of thousands of families have chosen Olathe as home over the last decades, and it happened because this community always looks to where we are headed.

Most of all, it happened because of a forward-thinking and strategic approach to the future. That approach continues today with our **Olathe 2040: Future Ready** Strategic Plan. The plan will help guide us down a path of resilience and prosperity and ensure our community remains simply exceptional. Olathe 2040 reflects the vision shaped by those with the utmost wisdom; those who call Olathe home. It reflects what our community will be for my children and grandchildren and yours.

I invite you to celebrate what our Olathe is today and share in the excitement for what we will be tomorrow. Please take the time to explore this document and hold us accountable to the vision and goals set forth in the plan. Also, think about what role you may play in shaping our most promising future.

A handwritten signature in black ink that reads "Michael Copeland". The signature is fluid and cursive, written in a professional style.

Michael Copeland  
Mayor, City of Olathe

# EXECUTIVE SUMMARY

In March 2018 the City Council participated in a Futures Lab workshop and established the foundation for the **Olathe 2040: Future Ready** Strategic Plan. That foundation includes five focus areas: Future Ready, Economy, Exceptional Services, Infrastructure, and Quality of Life. Each focus area includes a vision for 2040 that aligns with being Future Ready - resilient, innovative, nimble, and collaborative in addressing tomorrow's issues today.

A comprehensive public engagement process gathered 3,202 ideas for Olathe's future from residents using online and in-person engagement. The business community and other key community groups also contributed their input. The Strategic Planning Advisory Committee considered those ideas along with local, regional, and global trends to establish the Vision Framework and developed a vision for each focus area. The Framework was reviewed with the City Council on November 6, 2018.

A team of approximately 100 City staff members contributed to creating goals, strategies, measures, and targets to make this new, community-focused plan ready for implementation. Staff considered thousands of ideas and narrowed them to ones that are most consistent with the Guiding Principles set by the Strategic Planning Advisory Committee (see page 14). On August 20, 2019 the City Council reviewed draft goals, strategies, measures, and targets and provided feedback.

The **Olathe 2040: Future Ready** Strategic Plan is designed to position Olathe to get out ahead of issues our community will face through 2040. This plan sets a course for future generations to live and work in one of the best future-ready cities in the nation. However, the completion of the Olathe 2040: Future Ready Strategic Plan document doesn't reflect the end of the strategic planning process; rather, the work has just begun. **Olathe 2040: Future Ready** is a living document that will be updated regularly to reflect changing conditions and challenges. The success of the planning process lies in the execution and implementation of the strategies moving forward, and requires the collaborative efforts of the community to achieve the **Olathe 2040: Future Ready** vision.

# STRATEGIC PLANNING ADVISORY COMMITTEE

## OLATHE STRATEGIC PLANNING ADVISORY COMMITTEE

- Dustin Avey
- Christina Beard
- John Bennie
- Weston Curnow
- LeEtta Felter
- Jimmy Gaona
- Brian Geary
- Mike Jensen
- Amy Leffert
- Alan Marston
- Greg Mosley
- Anne Oswald
- Barry Sutherland
- Dean Vakas
- Marcia Youker

The Olathe Strategic Planning Advisory Committee represented diverse interests, demographics, various sectors, and different geographic areas of the community.

The Olathe Strategic Planning Advisory Committee met six times over a period of six months. During this time the group:

- Studied emerging trends and current data
- Gained insight into issues facing Olathe, identifying challenges and opportunities
- Considered community input surrounding the focus areas and desires for Olathe’s future
- Participated in community involvement
- Developed Guiding Principles and created strategies based on those principles
- Defined a vision and developed a vision outline
- Developed a vision framework
- Reviewed and made recommendations to enhance the final draft

The committee met a final time to speak into the final draft of the **Olathe 2040: Future Ready** Strategic Plan.

# VISIONING PROCESS OVERVIEW

The Olathe City Council began the **Olathe 2040: Future Ready** strategic planning process in spring 2018, meeting for a FuturesLab with Rebecca Ryan, Futurist\*. During this time, the Council provided strategic direction, considered future trends, and shaped five areas of community focus for the visioning process.

- Quality of Life
- Infrastructure
- Economy
- Exceptional Services
- Future Ready

On November 6, 2018, City staff updated the City Council on the strategic planning progress, followed with Councilmembers' participation in a visioning workshop.

\*A **futurist** conducts research and analyzes trends to make projections about the future - everything from shifting demographic patterns and new technologies to potential disease outbreaks and social conditions.

## PLANNING PROCESS

/// We keep moving forward, opening up new doors and doing new things, because we're curious...and curiosity keeps leading us down new paths. ///

- Walt Disney

**FUTURE READY**

Olathe takes a future ready approach. We are resilient, innovative, nimble, and collaborative in how we address tomorrow's challenges today.

**QUALITY OF LIFE**

People choose Olathe. Healthy, safe people living in quality neighborhoods connected to important places and each other.

**INFRASTRUCTURE**

Olathe delivers smart, connected, integrated, innovative infrastructure that is safe, reliable, efficient, and sustainable.

**ECONOMY**

Olathe is an economic leader in the region. Our strong economic base is built by highly successful businesses of all sizes, entrepreneurs, a skilled workforce, vibrant downtown, and other attractive places throughout the community.

**EXCEPTIONAL SERVICES**

Olathe efficiently provides high quality services the community values.

**Future Ready vision is the basis for the Strategic Plan. Olathe will use the Strategic Plan as a roadmap to successfully address tomorrow's challenges.**

# COMMUNITY ENGAGEMENT

## HOW DO YOU IMAGINE OLATHE IN 2040?

**Olathe 2040: Future Ready** implemented an engagement plan to gain extensive community feedback and valuable input for the vision framework's development. The approach promoted engagement activities for meaningful, deliberate discussions about the future of Olathe.

Beginning in July 2018, an aggressive schedule of engagement activities asked the public "How do you imagine Olathe in 2040?" Numerous events provided opportunities to contribute online comments, complete "How do you imagine Olathe" vision cards with comments or images, or play a Wheel of the Future game. Even the youngest participants were encouraged to draw how they imagine the future in Olathe or share their ideas in a video.

The innovative Neighborland public engagement platform encouraged collaboration with the public in an accessible, participatory manner with the goal of gaining meaningful input into the strategic plan vision process. Participants offered their own vision comments or could like what others contributed. More than 1,600 people engaged through Neighborland.

Community groups, such as Communities That Care, Faith Leaders, Economic Development Council, Chamber of Commerce, Young Professionals, and the Latino Leadership Team, offered their views in small group discussions. The business community participated in surveys and personal interviews, which also provided valuable input to shape the vision framework.

Special engagement efforts involved Olathe youth, including elementary, middle school, and high school students. Groups engaged are listed on the following page.

# COMMUNITY ENGAGEMENT

## COMMUNITY EVENTS

- Fourth Fridays
- Olathe Live! Concert series
- Mahaffie Family Fun Night
- Olathe Charities 5K
- Celebrate Olathe events

## YOUTH ENGAGEMENT

- Teen Bash
- Teen Council
- Olathe Civic Leadership Academy
- Pleasant Ridge Middle School Art Challenge
- Liberty View Elementary 4th Grade Project
- Imagine Olathe Art Challenge

## UNDERREPRESENTED GROUPS/TARGETED OUTREACH

- Mission Southside Sports Night
- Rock the Block!
- Communities That Care
- Faith Leaders
- Latino Leadership Team

## BUSINESS OUTREACH

- Chamber of Commerce Young Professionals Event
- Top 10 Large Employer Survey
- Letter from Mayor Copeland
- State of the City
- Economic Development Council
- Chamber Board Retreat

## BUSINESS LEADER INTERVIEWS

## CIVIC AND NETWORKING GROUPS

## BOARDS AND COMMITTEES

## MAYOR'S CABINET

# COMMUNITY ENGAGEMENT

## WIDESPREAD PARTICIPATION

The tracked participation in **Olathe 2040: Future Ready** community engagement showed widespread involvement. Nearly all residential areas of the city are represented. Areas without participation are high concentration industrial or commercial areas.

## STAFF INPUT

Throughout this visioning process, a Strategic Planning Staff Team identified issues facing Olathe in the future, and provided valuable input based on community engagement and the Olathe Strategic Planning Advisory Committee's assessments.

## COMMUNITY ENGAGEMENT BY THE NUMBERS

### OLATHE 2040: FUTURE READY OBJECTIVES

Define a **BOLD VISION** that distinguishes Olathe from other communities.

Develop **BIG AUDACIOUS GOALS**.

**ENERGIZE STAKEHOLDERS** to embrace the vision.

Chart a **CLEAR COURSE** with thoughtful strategies and tactics that are **ADAPTABLE** to possible futures.

Establish **TARGETS AND MEASURES** to determine whether Olathe is making progress toward that vision.

Establish a communication tool to **REPORT PROGRESS** and update the plan.

# GUIDING PRINCIPLES

---

The Advisory Committee developed Guiding Principles as a lens to help evaluate the vision statements, goals, and strategies included in the plan.

**COMPREHENSIVE** | considers all areas and aspects of the community.

**BOLD** | pushes beyond the usual limits, setting a new standard for excellence.

**INNOVATIVE** | is creative and unique, challenging the status quo.

**INCLUSIVE** | ensures fairness, dignity, and respect for all people.

**ENDURING** | has long-lasting, positive effects on the community.

**FLEXIBLE** | can be adapted as economic, social, and environmental conditions change.

**REALISTIC** | is fact-driven and has a high likelihood of being achieved.

**MEASURABLE** | outcomes can be tracked, monitored, and celebrated.

# FUTURE READY

**VISION STATEMENT:** Olathe takes a future ready approach. We are resilient, innovative, nimble, and collaborative in how we address tomorrow's challenges today.

In 2040,

- Residents and businesses are thriving, engaged in the community, and continuing to adapt and plan into the future.
- Regionalism has made our metropolitan area a model for the nation.

**/// Change is the law of life.  
And those who look only  
to the past or present are  
certain to miss the future. ///**  
- John F. Kennedy

## RESILIENCY AND TRUST

### In 2040

Olathe's focus on resiliency has transformed the way the City plans for and provides services.

#### Context

The City of Olathe, together with stakeholders and community partners, achieve resilience by planning for natural and man-made disasters and disrupters. Developing strategies that benefit citizens in good times and bad reduces the long-term risk to Olathe's sustainable future.

Changes in weather patterns in the Midwest could mean more concentrated seasonal rainfall, 20+ more days of 95-degree weather, and more dry days in the summer. Climate change could mean higher demand in the summer for water and energy year around. The population will grow in our region as climate impacts in other parts of the country make the Midwest more desirable.

Projects and programs traditionally funded by state and federal government now fall to local government. Olathe must build community and regional partnerships while becoming more financially resilient and self-reliant. Long-term planning helps to manage short-term thinking. Olathe's commitment to integrated land use, infrastructure, and amenity planning enhance the community's quality of life. Financial planning and debt management make sustainable development, infrastructure, and amenities possible at a reasonable cost to this generation and generations to come.

Olathe increases resiliency by not only providing high-quality services but convening stakeholders interested in building our community. Olathe's future community leaders grow from participating in this dialogue and partnership building. Although trust in government is on the decline nationally, Olathe continues to benefit from strong community relationships and trust. Year after year, Olathe receives very high levels of satisfaction ratings in the DirectionFinder® citizen satisfaction survey for the quality of its elected officials, city manager, and appointed staff.

As our community continues to grow physically and economically, we remain committed to maintaining our role as a resilient community and trusted resource for our residents.

#### Financial Condition

# QUALITY OF LIFE

**VISION STATEMENT:** People choose Olathe. Healthy, safe people living in quality neighborhoods, connected to important places and each other.

In 2040,

- Olathe is a great place to live and age well.
- People come to Olathe and stay because it is a place that provides hope for their future.
- Olathe is an inclusive community where everyone can live a productive life, where there are good jobs, attainable housing, quality amenities, access to quality education, child care, and health services.
- People feel safe and connected to their neighbors and have community pride.

## DIVERSE HOUSING AND QUALITY NEIGHBORHOODS

### In 2040,

Everyone can call Olathe home with attainable, diverse housing options in healthy, safe neighborhoods.

### Context

As our population continues to grow, we understand the importance of quality neighborhoods and varied housing options. In Olathe, about 70% of housing units are owner-occupied. Olathe recently received recognition as the best place in Kansas to buy a home and the #1 city in America for millennials to buy a home. Millennials are moving into fast-growing communities that offer a wide range of amenities and housing choices. About half of Olathe millennials own homes. Nationally, fewer millennials purchase homes than did previous generations. For many millennials, renting is a preference. Millennials who do want to buy a home often do not qualify for a home mortgage because of student debt load.

Millennials aren't the only demographic group reshaping neighborhoods and housing demands. Baby Boomers are selling their homes and downsizing from single-family to rental properties or maintenance provided communities. Many in the growing senior population wish to stay in their homes to avoid more institutional alternatives. Immigrant cultures are looking for multi-generational housing options to meet their families' needs. While the housing preferences may differ, all groups desire a healthy neighborhood, a place where they are connected to neighbors, are safe and feel safe, and can easily access food and other life necessities.

Suburban cities in the region struggle with housing that their teachers, police officers, and public works staff can afford in their communities. In Johnson County, homelessness is on the rise.. Rising costs, lack of labor, and neighborhood opposition are factors that make providing new affordable homes challenging for homebuilders. Olathe retains and attracts new residents and business because housing options are diverse in type and cost.

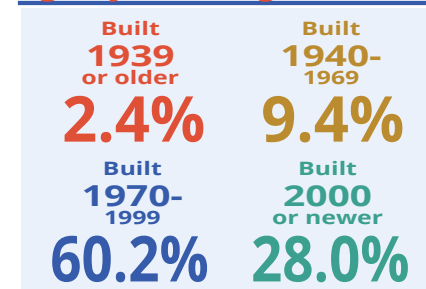

Housing access, affordability, and diversity across our growing population will be crucial to our resilient community in the future. We will advance solutions for neighborhoods and housing through the strategic plan and with tools such as the Healthy Neighborhoods Initiative, the Community for All Ages program, and the Master Housing Study.

### Housing Units

	2000	2018
<b>Total Units</b>	<b>33,703</b>	<b>50,863</b>
<b>Owner Occupied</b>	<b>69.5%</b>	<b>68.2%</b>
<b>Renter Occupied</b>	<b>27.4%</b>	<b>27.1%</b>

## CONNECTED PEOPLE

### In 2040,

Olathe neighborhoods connect people to where they live, work, and play.

Human connections bring meaning to our lives and create a sense of belonging in the community.

Neighborhoods are welcoming and have a sense of community and place.

### Context

Olathe's religious organizations build a strong sense of community. Engaging our community and creating connections supports a sense of belonging among Olatheans and preserves and builds on our shared community identity. Strong community connections improve physical and mental health, directly impacting the overall quality of life in the city of Olathe.

With advancements in technology, people can connect in ways not imagined by previous generations. Opportunities to meet others in virtual forums have expanded as have our methods for engaging with our community. Those who may not participate in traditional face-to-face activities can be involved and feel a sense of belonging.

While the digital space facilitates connection, we live in a time when loneliness and depression are on the rise and physical activity is decreasing. Having safe and easy access to the places we live, work, and play remains vital to our community well-being.

As we become a larger, more diverse community, we must make strategic investments in programs and infrastructure to create connections and a sense of community, and help bring meaning to the lives of all our residents.

### Population

Olathe is adding about 200 people each month

### Race and Ethnicity

	2000	2016

**// Home is ultimately not about a place to live but about the people with whom you are most fully alive. //**  
**- Erwin McManus**

## HEALTHY AND SAFE COMMUNITY

**In 2040,**

Quality, integrated, and supportive resources are available and accessible to all members of the community.

### Context

Olathe promotes active, healthy lifestyles for its residents, providing miles of trails, dozens of parks, and a community center designed for people of all ages. We have the region's first Mobile Integrated Health team, the Mental Health Co-Responder Program, the PulsePoint app, and PulsePoint Verified Responder Program. Our cardiac arrest survival rate is among the nation's highest. We are ranked the #6 safest city in America.

Still, our community is facing health challenges. Demand for mental and physical health care is increasing and is expected to expand as our population grows and ages. In 2040, approximately 24 percent of Johnson County's population will be 60 years or older. Between 2016 and 2017, walk-in appointments at Johnson County Mental Health increased by 10%.

Affordability and access to health-related services are concerns. Nearly 31,000 Johnson County residents did not have health insurance in 2016. That same year, 17 percent of county residents earned less than \$40,320 - 200% below the federal poverty level; Olathe's poverty rate was 6.1 percent. Additionally, homelessness in Johnson County increased 30 percent between 2017 and 2018.

Our community's health is also affected by other broader social and environmental factors. Obesity, social isolation, alcoholism, drug use, and suicide are on the rise. The temperature in the Midwest is expected to increase significantly over the coming decades. Higher temperatures will impact our community's overall health and will be particularly difficult for seniors, vulnerable populations, and those with respiratory illnesses.

Community health requires strong relationships among the City of Olathe, residents, community partners, and other agencies. We will approach our community's health and safety with a sense of urgency and in a way that is most beneficial to all Olatheans.

### Safety

**2017 Average Part I Crimes (Violent)  
per 1,000 Citizens is 2.7**

Olathe Population	Part I Violent	2017	2016	2015	2014	2013
138,944	214	1.5	1.4	1.2	1.4	1.5

Part I Violent Crimes include: Aggravated Assault/Battery, Homicide, Rape, and Robbery

Maximize an environment where people feel invested in community safety.	Overall Perception of Safety	Engagement in public safety	Number of completed Crime Prevention Through Environmental Design (CPTED) assessments
STRATEGIES			
Ensure people feel safe and are safe.			

\*See Appendix for performance measure descriptions and sources

## PEOPLE REACH THEIR FULL POTENTIAL

**In 2040,**

People have access to quality employment, education, enjoyment, and transportation.

### Context

When people have access to satisfying employment, first-rate education, physical and mental health services, and healthy lifestyle options, opportunities for a high quality of life improve.

Olathe is home to employers representing a wide range of services and specialties: education, technology, medical, insurance, food, security, and transportation. An economic base that is diverse in terms of sectors and size protects Olathe from changes in the broader economy such as wage stagnation and recession.

Public and private schools in Olathe have a long tradition of preparing our students for success. Olathe public schools have a 91.2 percent graduation rate, and an increasing number of graduates are choosing 4-year college programs. However, fewer students are entering vocational training programs, and a shortage of trained trade workers is emerging. Technology is transforming the work of the future and how people prepare for it. We will collaborate with our schools and businesses so that our growing employment sectors have a homegrown talent pool to fill jobs.

**/// I alone cannot change the world, but I can cast a stone across the waters to create many ripples. ///**  
- Mother Teresa

For some in our community, however, lack of training is not the only barrier to employment and reaching their full potential. Mental and physical health issues, lack of transportation, and homelessness hinder their ability to flourish. A community-wide effort is needed to address these complex challenges. We will partner with our robust faith communities, social services, and other organizations to create opportunities for all Olatheans to thrive.

## CELEBRATE OUR UNIQUE PLACES AND HISTORY

### In 2040,

Olathe treasures its rich history and cultural legacy through education, promotion, and preservation efforts. Locals and visitors enjoy Olathe’s historic attractions and community events.

### Context

The City of Olathe enjoys a strong community identity, formed from our rich history and the many unique places and events we offer our residents and visitors. Continuing to celebrate and promote our past will grow our vibrant community, strengthen our economic development, preserve our legacy, and cultivate the future leaders.

Our community is home to many unique venues that educate and inspire our residents and attract visitors. Mahaffie Stagecoach Stop & Farm Historic Site, Olathe Heritage Center, Olathe Naval Air Station, Lone Elm Park Historic Campsite, Kansas School for the Deaf, Olathe Memorial Cemetery, Ensor Park and Museum, and the Museum of Deaf History, Arts and Culture are all one-of-a-kind. Complementing these uniquely Olathe places are community events such as Johnson County Old Settlers Days, Olathe Live!, Fourth Fridays, and Wild West Days.

Staying true to the meaning of our namesake “beautiful,” we have invested in permanent and rotating public art, accentuating our downtown and surrounding community areas. We celebrate visual and performing arts through our Olathe Civic Band, Olathe Community Theater, and Chestnut Fine Arts Center. Our robust system of recreational parks and trails not only connect the community, they beautify our city and enhance community health.

# INFRASTRUCTURE

**VISION STATEMENT:** Olathe delivers smart, connected, integrated, innovative infrastructure that is safe, reliable, efficient, and sustainable.

In 2040,

- Our infrastructure is innovative, reliable, efficient, affordable, and sustainable.
- Transportation is safe, convenient, affordable, connected to the regional transportation system, and environmentally-friendly.
- Our infrastructure is prepared for and can recover quickly from disruption.

## OPTIMIZE HEALTH AND SAFETY

**In 2040,**

Olathe safeguards public health and the environment.

### Context

The City of Olathe protects public health, safety, and the environment. Technologies, practices, and regulations are constantly evolving in an effort to fulfill this mission of protection. With this important responsibility, we are committed to excellence. Our clean water is recognized as the best tasting in the State of Kansas. The American Public Works Association awarded our recycling and residential collection program with an Excellence in Operations award. Our fire, emergency medical, and police services are highly rated by both external organizations and our residents.

Our success in providing excellent services that provide health and safety is driven by continued investment by our community and by our proactive approach. We work closely with regulatory agencies to understand future requirements, scan industry trends for potential innovations, monitor the condition of our infrastructure to anticipate issues, and evaluate the effect of projects and development on the environment.

Emerging technology will significantly affect our infrastructure systems and enhance public safety in the future. Autonomous vehicles are expected to become part of our networks and offer many safety benefits, including improved traffic flow, fewer crashes, and less congestion. With other technological changes on the horizon, our approach must be innovative and flexible, while continuing to focus on the most important outcome - our community's public health, safety, and the environment.

## CONNECTED MULTIMODAL TRANSPORTATION SYSTEM

### In 2040,

People have multiple, convenient options to travel within Olathe and the region.

Olathe is an innovative and collaborative leader in regional transportation.

### Context

Olathe is regionally well-connected with two major railroad lines and I-35, a major interstate connecting the community to downtown Kansas City, neighboring suburbs, and points beyond.

Total daily vehicle trips are expected to increase significantly over the next two decades. Autonomous vehicles may increase the number of vehicle trips. The amount of rail and truck traffic is also likely to increase. A significant intermodal facility, located in nearby Edgerton, Kansas, generates heavy truck traffic today and continues to grow. A frustration for drivers and passengers alike is the lack of predictability in traffic congestion and travel time.

People want a more comprehensive transportation network, integrating multiple modes, including walking, biking, public transit, and on-demand car-sharing services. More people are choosing not to purchase a vehicle and instead car-share. KCATA has a new micro-transit ride-share program in Johnson County that is growing ridership. Unconventional methods of getting around, like electric scooters, are beginning to dot the transportation landscape. Electric cars are expected to take over a significant segment of the market in the next decade.

Multimodal transportation networks provide convenience and also increase equity by providing safe, reliable transportation to those who choose or cannot afford to drive a car. Our transportation system of the future will increase the consistency in travel times and improve the experience of traveling within Olathe, regardless of the mode of transportation.

“The reality about transportation is that it’s future-oriented. If we’re planning for what we have, we’re behind the curve.”

– Anthony Foxx

GOAL 1	MEASURE 1	MEASURE 2	MEASURE 3
Enhance movement of people and goods with a multimodal transportation network and infrastructure.	Reliable Travel Time	# of transportation modes supported and available within the city (ex. car, scooter, bikeshare, etc.)	Awareness of choice of multi-model options for movement of people and goods

**STRATEGIES**

- Plan for future forms of transportation.
- Implement innovative technologies and services for a sustainable transportation system.
- Create transportation centers for movement of people and goods with multiple modes of transportation.

GOAL 2	MEASURE 1	MEASURE 2
Reduce travel time in Olathe and to other parts of the region.	% of congested arterials during rush hour	Origin-Destination Trip Index

**STRATEGIES**

- Improve access to important places in the community and the region.
- Identify innovative solutions to transportation barriers.

**// // Alone, we can do so little; together, we can do so much. // //**  
**- Helen Keller**

\*See Appendix for performance measure descriptions and sources

## RESILIENT INFRASTRUCTURE

**In 2040,**

Olathe has purposefully built infrastructure redundancies that can accommodate disruption and future growth.

### Context

The past decades brought tremendous growth to Olathe. While growth continues to create new opportunities, careful planning is required to ensure that the financial and environmental effects are not a burden on future generations. Our Smart City initiatives and our continued efforts to align development with the Comprehensive Plan will help drive important infrastructure decisions.

Changing weather patterns, increasing demands for water, and growing energy costs are pressures on our aging infrastructure and community. For long-term resiliency, our infrastructure systems must be designed and maintained in a way that can accommodate disruption and future growth.

/// We may be able to predict when it shall rain but the exact second when the first raindrop shall hit the ground is always uncertain. ///

- Ernest Agyemang Yeboah

“ I don't know where we will be but we will light up the darkness together, when our imagination and the present become one. ”

– Eric Overby, Journey

# ECONOMY

**VISION STATEMENT:** Olathe is an economic leader in the region. Our strong economic base is built by highly successful businesses of all sizes, entrepreneurs, a skilled workforce, vibrant downtown, and other attractive places throughout the community.

In 2040,

- Olathe's diverse business and strong tax base thrives even during economic downturns.
- Olathe's residents are prosperous.
- Downtown Olathe features vibrant businesses, residences, civic services, and a popular community gathering place.
- A highly-skilled and diverse workforce serves the needs of all segments of the community.
- Educational training programs create job opportunities for young people to remain in our community.
- Olathe's built environment supports success for retail and service-oriented businesses and is sustainably positioned for the economic currency of the future.

## STRONG, DIVERSE ECONOMIC BASE BUILT BY HIGHLY SUCCESSFUL BUSINESSES OF ALL SIZES

In 2040,

Olathe's economy is resilient to downturns because there are businesses of all sizes and many different sectors.

### Context

Many diverse corporations, industries, and small businesses bring prosperity to our community. Our top ten employers represent a wide range of services and specialties: government, education, technology, medical, insurance, food, security, and transportation. Diversity in the business sector makes our community and workforce more resilient when there are downturns in the broader economy.

A thriving business community attracts and retains other vibrant businesses while growing our local tax base, employment opportunities, and individual prosperity. The number of jobs in Olathe more than doubled between 2000 and 2017. Over the same period, the Median Household Income of Olathe residents grew 35%. The City of Olathe's assessed valuation also markedly increased reflecting a stronger tax base.

Continuing to cultivate a strong, diverse business economy will ensure the economic prosperity of our community into the future. Additionally, it will help maintain the vitality of our City, creating a sustainable place for our residents to succeed.

### Household Income

## KNOWLEDGE-BASED WORKFORCE

### In 2040,

Olathe's workforce has the skills and knowledge to compete in current and emerging markets.

### Context

Olathe has a history of excellence in education. We are home to public and private universities, Kansas School for the Deaf, community college classrooms, and pre-K-12 public and private schools. More of our population has a bachelor's degree or higher (47%) than ever before.

Unemployment is low but some residents are underemployed. Job training and education improves skills and therefore the opportunities for higher wages.

New technologies are driving massive change in the skills and knowledge required for jobs today and the future. Collaboration between the business community, school district, and other educational institutions will enhance Olathe's ability to continue successfully preparing our students for the workforce of key industries.

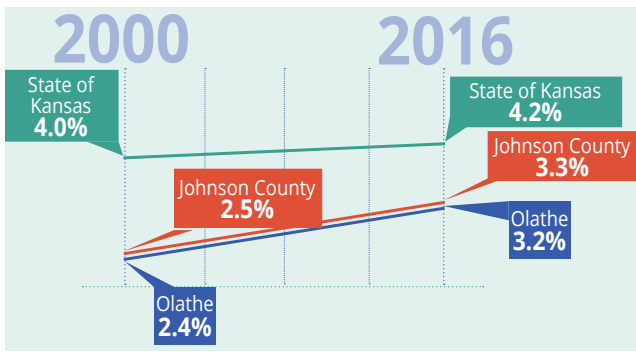

Education is one critical component of developing, attracting, and retaining entrepreneurs and start-ups. Availability of seed capital can make or break a new business venture. Additionally, the way people like to work - especially those who are sole proprietors or have few co-workers - is changing. Rather than working in isolation, solo workers enjoy the camaraderie and energy of shared workspaces. Working in partnership with the Olathe Chamber of Commerce and public-private entities, we can cultivate an environment where entrepreneurs can grow and thrive.

### Olathe Employment Sectors (2014)

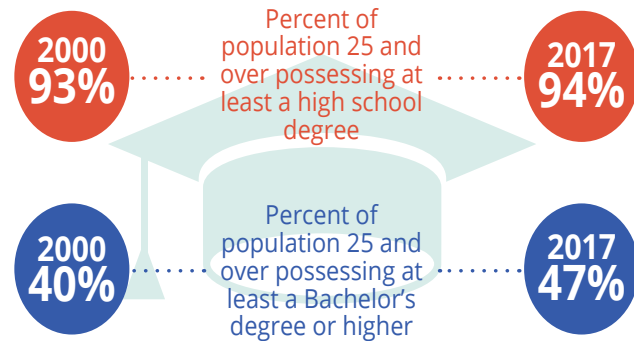

SECTORS	EMPLOYEES	% OF TOTAL

### Unemployment

### Educational Attainment

GOAL 1	MEASURE 1	MEASURE 2
Lead the region in the number of highly educated and skilled people.	Population with higher education compared to national average	Job growth in key industries
<b>STRATEGIES</b>		
Develop an unsurpassed education and training infrastructure to align workforce with jobs of the future.		
Invest in quality of life to retain and attract creative and innovative talent.		
Increase collaboration and partnership between businesses, schools, and universities.		

GOAL 2	MEASURE 1	MEASURE 2
Increase resources for entrepreneurs.	Start up locations square footage	Availability of public and private grants
<b>STRATEGIES</b>		
Increase the flow of seed and venture capital for startups in Olathe or businesses locating in Olathe.		

\*See Appendix for performance measure descriptions and sources

## VIBRANT BUSINESS, RETAIL, AND ENTERTAINMENT

**In 2040,**

The quality and variety of business, retail, and entertainment options attract visitors, residents, and business investment.

### **Context**

Online shopping and technological innovation continually change how we shop, do business, and are entertained. We can purchase nearly everything we need online, conduct meetings via video conference calls, and connect with friends and family on social media. Still, people desire to have physical spaces to do activities like these in person. In fact, between 2012 and 2040, Johnson County is projected to have an increase of 151 percent in commercial, office, and industrial square footage.

The design and use of retail and business spaces are transforming. Retailers are embracing the trend of 'showrooming' - a hybrid of brick-and-mortar locations and e-commerce. Physical store locations allow shoppers to touch and try on items before purchasing online and build valuable brand awareness. Online shopping and on-demand delivery are opening the door to changes in logistics infrastructure, technology, and delivery systems.

Additionally, rather than being separate from other businesses, leading-edge anchor institutions and companies are beginning to locate in clusters where they can connect with start-ups, business incubators, and accelerators.

Having places to gather to meet friends new and old is vital to our community identity and for meeting the needs of Olatheans. Throughout the Olathe 2040 planning processes, residents of all ages, top business leaders, and young professionals confirmed the desire for additional entertainment options in Olathe, including fine dining options and entertainment venues.

GOAL 1	MEASURE 1	MEASURE 2
<p>Establish Olathe as the premier business, retail, and entertainment draw in the region.</p>	<p>Total Appraised Value of Downtown District</p>	<p>Retail Pull Factor</p>
<b>STRATEGIES</b>		
<p>Invest in shopping, dining, entertainment, and living opportunities that will endure.</p>		
<p>Create a leading edge and flexible approach to development and redevelopment.</p>		
<p>Revitalize and redevelop aging residential and commercial real estate.</p>		
<p>Revitalize Olathe’s historic downtown as a government center and a place to fulfill the daily needs of citizens and employees.</p>		
<p>Improve the attractiveness and sustainability of the built environment.</p>		
<p>Promote unique places and experiences.</p>

# EXCEPTIONAL SERVICES

**VISION STATEMENT:** Olathe efficiently provides high quality services the community values.

In 2040,

- The City of Olathe utilizes resources to meet or exceed public expectations.
- Residents have confidence in their community leaders.
- Community members participate in local government decision-making.
- The City of Olathe's workforce sets the standard for excellence in local government.
- City officials collaborate with regional, state and federal officials to enhance service delivery and quality of life.

## QUALITY CITY WORKFORCE

In 2040,

The City of Olathe's quality workforce sets the standard for excellence.

### Context

The City of Olathe is one of the top employers in our community – listed number seven in 2017, with 850 employees. The City of Olathe, especially with its size, has positioned itself within the community as a leader. By making decisions that are reflective of the community values and needs, by ensuring demographic equity in the organizational structure, and by investing in employee development and high-quality service, Olathe strives to be recognized as an employer of choice.

*Commission on Fire Accreditation International*

**2018 Granicus Digital Strategy Award**

## INNOVATION AND COLLABORATION

**In 2040,**

The City's organizational culture supports innovation and collaboration in decision-making and service delivery.

### Context

We have a high performing organization that is committed to providing the best services to our residents. This commitment has produced innovative approaches and solutions, along with top national citizen satisfaction ratings.

The City of Olathe's culture is demonstrated through our City employees – by providing excellent city services and taking a collaborative and innovative approach with community partners and other jurisdictions to improve lives.

Our close alignment with the Alliance for Innovation and the International City/County Management Association (ICMA) has contributed to our culture of innovation and collaboration.

A culture of innovation and collaboration will take service delivery to the next level – anticipating what customers want before they want it and making customer interaction a positive experience rather than just a transaction.

# CONCLUSION: A MESSAGE FROM THE FUTURE

As discussed in the Visioning Process Overview (see page 10), the foundation for the **Olathe 2040: Future Ready** Strategic Plan was the Futures Lab Workshop held in March 2019 with Futurist, Rebecca Ryan. The workshop was a weekend long event that saw the Council “standing” in 2040 and describing four different types of futures: a “Business as Usual” future, a “Watch and Wait” future, an “Olathe Strong” surviving a Category 5 Tornado future and finally a “Rapid Growth” future. For each future, Rebecca created a “story” that painted the picture of what that future would look like. The process then involved deconstructing those four futures to find the commonalities that existed – those commonalities became the pillars of this plan.

To close, we thought it would be poignant if Rebecca would once again “stand” in 2040 and tell us the story of this plan – a Future Ready Olathe 2040.

## A MESSAGE FROM THE FUTURE BY REBECCA RYAN, FUTURIST

*Imagine: A holo-frame (a frame with a hologram image inside) opens before you. In the holo-frame stands an Olathe resident, visiting you from 2040. She is dressed in dark jeans and a gray shirt. You notice a small green light flashing near the pocket of her shirt, indicating the fabric is turned on, measuring her respiration, hydration, and heart rate. She looks towards you and begins to speak.*

Hello! I'm so glad I get a chance to talk with you today. I realize it's strange, to talk to a resident of Olathe from 2040...but then, it's often hard to imagine what the future will be.

I want to share what Olathe is like now, 20 years after you completed your **Olathe 2040: Future Ready** Strategic Plan.

For the most part, I think you'll be pleased. Let me see if I can turn the holo-cam around so you can see what I can see...

*Imagine: Your view switches and you are looking through a window several stories overhead on Santa Fe.*

I'm standing here in my home at the corner of Kansas Avenue and Santa Fe Street. This is one of the newer stacked homes that's been built for young families like mine in the past 10 years. I think you used to call it “high density”? Anyway, my family and I love living here. We share a beautiful greenspace and courtyard with 12 other families where our kids play together.

*Imagine: You see a courtyard of green grass and playground equipment. Children of multiple nationalities are playing together on a jungle gym. The camera turns back around to face our resident from 2040. She points up and says:*

One of the things I love most about our home is that our roof has an edible garden and solar panels that help keep our cooling costs

down during our hot summers. Olathe has made a big commitment to sustainable development and design, and I want to thank you for making that a priority with the 2040 plan.

My spouse and I have two children: Antonia our daughter is four and Samson is two and a half. Toni, that's her nickname, is in year-round school; it's a Johnson County partnership, which we appreciate because it gives her experiences all over the Kansas City area.

*Imagine: She glances at her wrist.*

Excuse me, I just got a video notification that the AV that picked Toni up ten minutes ago just dropped her off at school.

*Imagine: She looks back at you.*

You know, when I was young, my parents had to drive me all over. We had one of those minivans with doors that automatically slid open and closed! Now, we rent an EV (electric vehicle) occasionally when we're taking a family trip, but we use AVs for everything now. We don't have a garage because we don't own a car. Only about half of all families own cars now.

Oh! You're going to love hearing this! Since you started the 2040 plan, the railroad crossing in Olathe West was raised! It took longer than some people thought it would. One thing that hasn't changed

since 2020 is that people still disagree! Unfortunately, there was a bad accident at a railroad crossing in a neighboring town that got everyone's attention. The state and federal government put up some matching grants and when it came to the Council for a vote, the Council live-pollled all residents about what we wanted to do. Over 60% of us responded and within ten minutes, Council unanimously passed the funding to raise the crossing.

Where was I? Oh yes, year-round school. This is one of the ways that Olathe has continued to make itself a great community for young parents like us. It's fascinating to see Toni and Samson grow up. Their lives are so different than mine was.

When I was born back in 2014, I still used coloring books and crayons. Kids still love to color, but now parents buy their kids padlets and load them with apps, friends, and Avies (avatars with artificial intelligence that can teach our kids everything from music to math to bird watching.). Toni loves her Avies, but she's an old soul. One of her favorite apps is a coloring book. She tells the padlet "green" and her stylus colors with green. Or she says, "purple" and the stylus colors purple. She's even invented a few colors of her own. She's way ahead of me, when I was her age. We also have her padlet loaded with some of her good friends. So anytime she wants to, she can visit them with real time holo-frames. Just this morning, she holo'ed with her best friend from school, so they could wear their matching shirts. Her grandparents love this, too. We holo with them every week; sometimes we all eat dinner together.

Enough about my family, what else can I tell you about Olathe? Well, why don't we take a little tour? Let me call up my Hummingbird.

*Imagine: A drone the size of a hummingbird quietly buzzes into the frame. A gentle robotic voice says, "Where are we going?"*

Let's take a quick tour of Olathe, Hummingbird. Let's go see Sayad at Garmin.

*Your view switches to what the hummingbird sees as you fly out over Sante Fe street, noticing the beautiful rooftop gardens, greenspaces, and well-cared for neighborhoods. The streets are busy but quiet; EVs make less noise than the cars of today. You hear a soft beep in the background.*

Okay, here we go. Excuse me, I need to grab a quick glass of water. My shirt just told me I'm a bit dehydrated...

*Imagine: A moment passes.*

Let's stop at the Garmin campus first. You probably notice this area has really been developed a lot since your time. Garmin is where my spouse Sayed works. He's a computational learning whiz. He grew up in India but emigrated to the U.S. for his job. That's how we met. I work at Garmin, too, and we decided we wanted to stay and raise our kids here.

*Imagine: The hummingbird zooms up to the sixth floor and hovers outside a Garmin window where a team of people - half of them in holo-frames - are meeting. One of the team members glances at his wrist and then looks out the window and waves.*

That's Sayed. He and his team are working on a 7G collaboration. I think you had 5G in 2020, right? Well, this is the next-next iteration of that.

Okay, Hummingbird, let's go to our kid's favorite location, the water park, and then head over to the Olathe health campus, the jewel in our crown of live-work-play communities. You'll notice that Olathe is a true, intergenerational community. It's one of the things I love best about living here.

*Imagine: You see the stacked homes, shops, and greenspaces that line the Garmin campus as you make your way towards the water park...*

## FUTURE READY

FUTURE READY			
RESILIENCY AND TRUST			
Goal	Measure	Description	Source
1. Improve the community's ability to be resilient and thrive.	1. Resiliency Index	Under development	TBD
2. Preserve high-level of public trust in the City of Olathe government.	1. Quality of Leadership Index	Leadership provided by the City's elected officials	DirectionFinder®
		Effectiveness of the city manager/appointed staff	

## QUALITY OF LIFE

QUALITY OF LIFE			
DIVERSE HOUSING AND QUALITY NEIGHBORHOODS
