

**WRITTEN RESPONSES FROM
FIRST OPEN HOUSE
FEBRUARY 25, 2023**

CHALLENGES

- 1 Continuing loss of wetlands and woodlands
- 2 Beck Road Expansion - disagree
- 3 Maintain sub division roads
- 4 Please protect our wetlands and woodlands
- 5 Maintaining the cleanliness of Pavilion Shores
- 6 Please minimize traffic congestion for new developments, especially M5
14 Mile
- 7 Managing development will be a challenge for Novi
- 8 Please protect our wooded areas and wet lands. Once these are gone,
you can't get them back! They will only be more valuable in the future
- 9 Save trees vs. too much development
- 10 Maintain Beck Rd. expansion
- 11 Growth and traffic will be a challenge. Improved bike path can help with
this, it's cheaper than big roads and it promotes a healthy community and
environment. Please prioritize this solution over traditional big wide
roads
- 12 Potential development at 14 mile + M5 properties causing traffic on 14
mile + backing up to M5 when turning left into potential development

- 13 Disagree with Beck Rd. expansion
- 14 Issues with Beck Rd. expansion - school bus stops
- 15 Issues with Brck Rd. (Beck?) expansion - increasing traffic with Mork Rd.
- 16 Issues with Brck Rd. (Beck?) expansion - home values
- 17 Issues with Brck Rd. (Beck?) expansion - noise abatement
- 18 Traffic congestion
- 19 Loss of natural areas, wetlands
- 20 NO Beck Road expansion
- 21 Opposed to widening Beck Rd. in residential area
- 22 Beck Rd. does not need to be widened. This will only increase traffic from Wixom and S. Lyon and increase noise and pollution
- 23 We love to ride our bikes. We don't have good bike paths around.
- 24 Don't expand Beck Rd. It is already crowded and noisy
- 25 There is a lack of green spaces (trails, parks, nature/wooded areas) in east area of Novi
- 26 Continued development is leading to heavy traffic. There is a strong need for biking lanes and corridors to connect transportation alternatives.

- 27 Do not expand Beck Rd.
- 28 Maintain subdivision roads
- 29 Maintain current wetlands
- 30 No new development
- 31 The city needs to stop rezoning the woodlands to put in more new subdivisions. This is ruining the look of the city
- 32 Stop developing woodlands and wetlands
- 33 Improve but do not expand Beck Road
- 34 Maintain subdivision roads
- 35 Electric power infrastructure
- 36 Keep up with technology
