SUBJECT: Approval to award engineering design services to URS Corporation (AECOM) for the 2016 Neighborhood Road Program in the amount of \$63,500.

SUBMITTING DEPARTMENT: Department of Public Services, Engineering Division *BTC RFA*

CITY MANAGER APPROVAL: *[Signature]*

EXPENDITURE REQUIRED	\$ 63,500
AMOUNT BUDGETED	\$150,000
LINE ITEM NUMBER	203-203.00-805.436

BACKGROUND INFORMATION:

Each year, the City of Novi selects residential streets for reconstruction, repaving, repair, and/or rehabilitation based on PASER ratings, staff's field observations and resident concerns. Staff will work with URS Corporation (AECOM) to develop a list of streets to be further evaluated and designed for inclusion in the 2016 program. This list will be distributed once the streets have been selected in the 3rd Quarter.

URS will be assisting the Engineering Division with the design and construction engineering services for this project. The design fees for the project are based on the fixed fee schedule established in the Agreement for Professional Engineering Services for Public Projects for the City's three pre-qualified engineering consultants. The design fees for this project will be \$63,500 (6.35% of the estimated construction cost of \$1,000,000). The construction phase engineering fees will be awarded at the time of construction award and will be based on the contractor's bid and the fee percentage in the Agreement for Professional Engineering Services for Public Projects. A draft of the Supplemental Professional Engineering Services Agreement for this project is enclosed.

The 2016 Neighborhood Road Program will be designed over the winter months, and construction of this project is expected to commence in spring/summer 2016.

RECOMMENDED ACTION: Approval to award engineering design services to URS Corporation (AECOM) for the 2016 Neighborhood Road Program in the amount of \$63,500.

Section 11. Approval; No Release.

Approval of the City shall not constitute nor be deemed release of the responsibility and liability of Consultant, its employees, associates, agents and subconsultants for the accuracy and competency of their designs, working drawings, and specifications, or other documents and services; nor shall that approval be deemed to be an assumption of that responsibility by the City for any defect in the designs, working drawings and specifications or other documents prepared by Consultant, its employees, subconsultants, and agents.

After acceptance of final plans and special provisions by the City, Consultant agrees, prior to and during the construction of this project, to perform those engineering services as may be required by City to correct errors or omissions on the original plans prepared by Consultant and to change the original design as required.

Section 13. Notices.

Written notices under this Agreement shall be given to the parties at their addresses on page one by personal or registered mail delivery to the attention of the following persons:

City: Rob Hayes, P.E., Director of Public Services and Maryanne Cornelius, Clerk, with a copy to Thomas R. Schultz, City Attorney

Consultant: Sean Kelsch, P.E.

During the performance of the professional services by Consultant, City shall have the right to inspect the services and its progress to assure that it complies with this Agreement. If such inspections reveal a defect in the work performed or other default in this Agreement, City shall provide Consultant with written notice to correct the defect or default within a specified number of days of the notice. Upon receiving such a notice, Consultant shall correct the specified defects or defaults within the time specified. Upon a failure to do so, the City may terminate this Agreement by written notice and finish the work through whatever method it deems appropriate, with the cost in doing so being a valid claim and charge against Consultant;

or, the City may preserve the claims of defects or defaults without termination by written notice to Consultant.

All questions which may arise as to the quality and acceptability of work, the manner of performance and rate of progress of the work, and the interpretation of plans and specifications shall be decided by the City. All questions as to the satisfactory and acceptable fulfillment of the terms of this agreement shall be decided by the City.

Section 16. Delays.

No charges or claims for damages shall be made by the Consultant for delays or hindrances from any cause whatsoever during the progress of any portions of the services specified in this agreement, except as hereinafter provided.

In case of a substantial delay on the part of the City in providing to the Consultant either the necessary information or approval to proceed with the work, resulting, through no fault of the Consultant, in delays of such extent as to require the Consultant to perform its work under changed conditions not contemplated by the parties, the City will consider supplemental compensation limited to increased costs incurred as a direct result of such delays. Any claim for supplemental compensation must be in writing and accompanied by substantiating data.

When delays are caused by circumstances or conditions beyond the control of the Consultant as determined by the City, the Consultant shall be granted an extension of time for such reasonable period as may be mutually agreed upon between the parties, it being understood, however, that the permitting of the Consultant to proceed to complete the services, or any part of them, after the date to which the time of completion may have been extended, shall in no way operate as a waiver on the part of the City of any of its rights herein set forth.

Section 17. Assignment.

No portion of the project work, heretofore defined, shall be sublet, assigned, or otherwise disposed of except as herein provided or with the prior written consent of the City. Consent to sublet, assign, or otherwise dispose of any portion of the services shall not be construed to relieve the Consultant of any responsibility for the fulfillment of this agreement.

Section 18. Dispute Resolution.

The parties agree to try to resolve any disputes as to professional engineering services or otherwise in good faith. In the event that the parties cannot resolve any reasonable dispute, the parties agree to seek alternative dispute resolution methods agreeable to both parties and which are legally permissive at the time of the dispute. The parties agree to use their best efforts to resolve any good faith dispute within 90 (ninety) days notice to the other party. In the event the parties cannot resolve that dispute as set forth above, they may seek such remedies as may be permitted by law.

EXHIBIT A - SCOPE OF SERVICES

Consultant shall provide the City professional engineering services in all phases of the Project to which this Agreement applies as hereinafter provided. These services will include serving as the City's professional engineering representative for the Project, providing professional engineering consultation and advice and furnishing customary civil, structural, mechanical and electrical engineering services and customary engineering services incidental thereto, as described below.

A. Basic Services.

[see attached]

B. Performance.

1. The Consultant agrees that, immediately upon the execution of this Agreement, it will enter upon the duties prescribed in this agreement, proceed with the work continuously, and make the various submittals on or before the dates specified in the attached schedule. The City is not liable and will not pay the Consultant for any services rendered before written authorization is received by the Consultant.

**Reference: Proposal for Engineering Services
2016 Neighborhood Roads Program**

Dear Mr. Wayne,

AECOM is pleased to submit this proposal for the above referenced project. We understand that the project includes preparation of two contracts for roadway reconstruction and rehabilitation. A contract including concrete roadways is to be let and constructed early in 2016. The contract for asphalt roadways is to be awarded by Council after July, 2016 and constructed later in the summer.

We understand that the construction costs for the two projects have been estimated at \$1,000,000 (\$575,000 for the concrete roadways and \$425,000 for the asphalt roadways). The limits and scope of work will be refined as design progresses in order to meet the available funds.

The following tasks will be completed for the project:

Initial Meeting and Scope Verification

The intent of this task is to meet with the City and verify the limits and scope of work for the project. The need for soil borings and pavement cores will be discussed, as will the scope, schedule, and budget for the two contracts. The need for drainage improvements and work in addition to pavement reconstruction/rehabilitation will also be identified and discussed at the meeting. Upon completion of this task, we will move forward with the surveying and preliminary design.

Survey and Base Plans

The intent of this task is to provide topographic survey and base mapping as needed for the proposed design work. We anticipate that a full topographic survey will be needed for the proposed work. Base drawings will be created using the survey data, supplemented by aerial photos and a detailed field review of the site.

AECOM will prepare base plans (30%-40% complete) to identify the major design features. These plans will also be used to further the utility investigation and resolution of potential conflicts and *geotechnical* investigations. Base plans will include the results of the survey information, utility information from response to our solicitations, and a preliminary estimate.

AECOM will distribute the base plan design set to the utility companies that have indicated that they have facilities in the project area. We will incorporate the additional information that utility companies provide to AECOM into the plan set.

Preliminary Plans

Incorporating the information obtained from the above tasks, we will prepare the preliminary plan set (90%) in accordance with City requirements. This submittal will include items such as the typical cross sections,

Mr. Adam Wayne, PE

Page 2

materials/quantities and details. A Project Manual and preliminary updated cost estimate will also be prepared and submitted.

Final Plans and Proposal

Incorporating comments from the City, AECOM will develop the final plans submittal, including the plan set, Project Manual, and cost estimate.

Advertising and Award

We will respond to any final comments received from the City and submit the Advertisement for Bids to the City for publication. Contract Documents will be made available to bidders by AECOM. AECOM will respond to bidder inquiries during the advertising period and prepare addenda as required. Following the bid opening AECOM will submit the Bid Tabulation and a letter with recommendations regarding contract award

Construction

AECOM will provide full time inspection, contract administration, and staking as required for the project.

Schedule

We anticipate that the following schedule can be maintained:

Contract 1 – Concrete Roadways

Notice To Proceed	December 8, 2015
Base Plans Submittal	January 22, 2016
Preliminary Plans Submittal	February 18, 2016
Final Plans Submittal	March 11, 2016
Contract Award	Early May 2016
Begin Construction	Early June, 2016
End Construction	Late July, 2016

Contract 2 – Asphalt Roadways

Notice to Proceed	December 8, 2015
Base Plans Submittal	April 8, 2016
Preliminary Plans Submittal	May 13, 2016, 2016
Final Plans Submittal	June 10, 2016, 2016
Contract Award	July, 2016
Begin Construction	August, 2016
End Construction	October, 2016

Estimated Cost of Construction and Design Fees

We understand that a construction budget of \$1,000,000 has been set and that the limits and scope of work will need to be set to meet the budget.

The design fee (using the Engineering Fee Chart for Road Construction work) is 6.35% of construction cost.

$$6.35\% \times \$1,000,000 = \mathbf{\$63,500.}$$
